Distributed Technology Group (DTG) Named to 2015 Rochester Top 100 for the Third Consecutive Year 29th Annual List of Fastest-growing Privately Held Businesses

ROCHESTER, NY (October 29, 2015) Distributed Technology Group, a Perinton based technology company that is dedicated to helping organizations develop and implement secure, productive and cost-effective IT strategies claimed the number thirteen spot on the 2015 Rochester Top 100 list of the fastest-growing privately held businesses in the Greater Rochester region. The Rochester Top 100 is a Rochester Business Alliance and KPMG LLP program that ranks businesses based upon both dollar and percentage revenue growth.

Rochester Business Alliance President and CEO Bob Duffy said, "It is encouraging to see the wide range of business types that make up the Rochester Top 100. Service businesses led the way with technology, manufacturing, and construction close behind. This type of diversity bodes well for the future of our region's economic vitality."

To be eligible for the Rochester Top 100, businesses must be independent, privately held, headquartered in the nine-county Rochester region, and have revenue of at least \$1 million in each of the three most recent fiscal years. The program recognizes Rochester's reputation as a region of innovation spurred by a strong entrepreneurial spirit. The 2015 Top 100 companies combined for over \$12.6 billion in revenue and employed nearly 100,000 people in the last fiscal year.

Mark Matheson, DTG President and Owner said, "I am thrilled that our company has been recognized as one of the Rochester Top 100 companies. We are fortunate to have made this list for the last three years, and it is humbling to pause and recognize that this honor is due the support and endorsement of our business by our customers and key partners. Of course, the execution of our business model has been made possible by the very best technical and sales team that exists in Upstate, NY. I consider myself fortunate to have the privilege of working with them every day at DTG."
