

DISTRIBUTED TECHNOLOGY GROUP HONORED AS RECIPIENT OF EMC PARTNER SERVICES QUALITY AWARD

DTG Honored for the Third Consecutive Year

Perinton, NY—May 4, 2015—Distributed Technology Group (DTG) announced today it has received an EMC Partner Services Quality Award from [EMC Corporation](#) for achieving outstanding service excellence and customer satisfaction as measured by the EMC Partner Services Quality (PSQ) program.

The EMC PSQ program is a project-specific survey program designed for partners with Service Partner designations to solicit customer feedback regarding the quality of their service engagements.

The award was presented on May 4 to Distributed Technology Group during the Global Partner Summit at EMC World 2015. This marks the third consecutive year DTG has received the distinguished recognition.

“EMC’s Partner Services Quality Award is a validation from our customers, the most critical constituents, that DTG’s execution and knowledge of EMC’s best-of-breed technology systems is exceptional, and we are thrilled to be recognized for a third time,” said Mark Matheson, President of DTG. “Our team of dedicated and highly-certified engineers understands the real-world application of EMC technology in customer environments. The fact that this prestigious award was only presented to 28 companies places DTG into an exclusive club comprised of truly industry leading partners.”

“When you combine EMC’s world-class technology innovations with the outstanding service implementation that DTG delivers, the bar is raised to a new industry standard,” said Richard Steeves, Director, Global Services Partner Programs for EMC Corporation. “It is a pleasure to recognize DTG’s incredible year and truly exceptional commitment to and investment in customer service, and we look forward to our continued relationship.”

EMC Services Partners are trained and authorized by EMC to sell and deliver a comprehensive portfolio of services ranging from technology implementation to technical support. These partners provide value-added services to address the most crucial aspects of a customer’s information technology infrastructure.

About Distributed Technology Group

DTG has been providing technical consulting services with a focus on computing infrastructure, backup and recovery, virtualization, data storage and security solutions since 1999.
